FOOD DONATIONS

We are still looking for food donations for volunteers during advance week, uniform distribution days, and tournament week. Our team wants to provide the best experience possible for our volunteers. We have reached out to numerous businesses but if you have any recommendations or contacts, please email Ashleyfairbanks@pgatourhq.com. Thanks for your continued support and for being a part of the season finale of the PGA TOUR Champions!

VOLUNTEER GUIDE

A volunteer guide has been made with any information you may need about the program or tournament. It is a one stop shop to reference at your discretion or any friends family, or colleagues that are interested.

MEET YOUR STUDENT VOLUNTEERS

Hello everyone, my name is Mateo Malta. I plan to use this opportunity to build on my future in the industry. I have also been interested in growing my knowledge on various income investment strategies. I am very excited to take on this role and I look forward to working with you all at the tournament! Here is a little bit about me:

- I enjoy golfing, hiking and finding new music to listen to
- I am from Folsom, California
- I go to GCU where I am studying Sports and Entertainment Management
- My goals from this internship are to grow my connections, learn better time efficient strategies, build my confidence and improve on my overall skillset

Hello, I'm Remy Laflamme and I'm so excited to join the Charles Schwab Cup Championship tournament team! I'm originally from the Bay Area of California, and have spent my entire life surrounded by sports, having played seven different ones ranging from golf to softball. My passion for playing has stretched into a passion for the industry.

Some facts about me:

- Arizona State University alumni graduated in 2024 with a Bachelors in Sports Business
- Served as a Director on the Joint Chapter Management Team of Delta Gamma Gamma Phi
- My hobbies include fitness, watching sports, specifically hockey
- I enjoy spending time with my family and dog

WE ARE PREDICTING THE UNPREDICTABLE.

At Mayo Clinic, we are innovating every day to make the future better for everyone.

Our experts are leveraging new technology in many groundbreaking ways, such as exploring the potential for artificial intelligence to help clinicians predict a patient's pain management needs after surgery which can help minimize their reliance on opioids.

In cardiology, we're using a new innovative energy source called pulsed field ablation (PFA) to safely and successfully treat a common type of heart arrhythmia.

In early cancer detection, our experts recently completed a study that [uncovered genetic cancer risks in 550 patients](#) — a breakthrough that could help expand genetic screening nationwide and change the course of many lives.
